

FREE TSST PROGRAMME IN MATHS

Academic Year 2019-20

Exeter Maths School, Rougemont House, Castle Street, Exeter, EX4 3PU

Are you teaching Maths but it wasn't the focus of your degree? Are you an NQT in Maths?

Are you returning to teaching Maths following a career break?

If you answered yes to any of the above, TSST could be the perfect course for you!

In the South West, EMS is proud to run the government's proven professional development programme for non-specialist and returning teachers. Free of charge to all state school teachers, this is your chance to enhance your subject knowledge, explore teaching strategies and develop confidence in challenging misconceptions and building understanding in students.

Course Summary

There are two courses available: Teaching Maths at KS3 and Teaching Maths GCSE – Higher Tier. These are comprehensive courses, each consisting of 6 one-day workshops in the autumn and spring terms, a 2-day residential in the Easter holidays and a one day conference (PhysMaths) to complete the course. Guided lesson planning and mentor support, along with online learning resources, will provide participants with the tools needed to sustain progress once the course is completed.

A broad range of topics will be covered including applications of maths and developing problem solving; a tailored programme is delivered according to participants' needs. There will also be time to reflect, evaluate and feedback between sessions.

Optional Masters Credits

Participants will have the option to accrue up to 60 Masters Credits through the University of Exeter on completion of up to two Masters level modules that can be cashed in or combined with further modules to achieve a Masters level qualification in maths teaching.

Cost

FREE to participants from the state sector plus our funding allows us to make a contribution towards cover in the region of £300 per teacher for the full course.

Dates

Weds 13th Nov, Thurs 5th Dec, Weds 22nd Jan, Weds 12th Feb, Fri 6th March, Fri 1st May. Residential: Mon 30th – Tues 31st March. PhysMaths: Tues 7th July.
